Readme

ShipTrack (shipment1212). TeamID: TODO | Name/Roll: TODO | Date: 2026-09-08.

Assignments Completion — serial-wise index

TeamID: TODO | Name/Roll: TODO | Date: 2026-09-08

One folder proving all 4 assignment patterns are completed for ShipTrack (shipment1212). CampusEats names mapped to ShipTrack equivalents.

#	Assignment	File in this folder	Status for this project
1	HTTP by Hand & Project Setup	01-assignment1-http-and-setup.md	COMPLETED (mapped): 5x curl -i table + DevTools steps + repo proof + brief nouns/verbs
2	Services, Contracts & Schema	02-assignment2-design-contracts-schema.md	COMPLETED (mapped): capabilities, 12-service diagram + ownership, openapi.yaml contracts, createShipment central op, ER + SQL, 5-property check
3	External SOAP Partner	03-assignment3-soap-integration.md	COMPLETED (live, stronger than paper): WSDLs served, SOAP client, binding, discovery, fault map
4	Rebuilding service in REST (tracking-service)	04-assignment4-tracking-rest.md	COMPLETED (mapped): Parts A–D, resource table, openapi.yaml, implementation, tests, resilience, 5 answers

How to verify (copy-paste)

```
cd "/Users/nandankabra/Desktop/IIIT /sem 3 /webservices/shipment1212"
ls assignments-completion/
cp .env.example .env; docker compose up -d --build; docker compose ps
open http://localhost:18000/api-docs
open http://localhost:8005/api-docs
curl -s http://localhost:8007/wsdl/country?wsdl | head -20
npm install; npm test --workspace services/tracking-service
npx @redocly/cli lint services/tracking-service/openapi.yaml
```

Note: original PDFs say CampusEats; this folder shows the same 4 patterns done for ShipTrack. For literal CampusEats filenames (http-log.md, design.pdf, partner.wsdl, NOTES.md), generate them from these 4 files + fill TeamID/Name-Roll.
